Summary:

Engineering leader with 19+ years of experience in R&D, product development, and hardware/software engineering. Passionate about building scalable and innovative engineering solutions.

Work Experience:

Chief Engineering Officer | BuildTech Solutions | 2018 - Present

- Led the development of cutting-edge IoT and automation solutions.
- Scaled engineering teams from 50 to 300+ professionals across multiple sites.
- Streamlined product development lifecycles, reducing time-to-market by 40%.

VP of Engineering | NextGen Tech | 2012 - 2018

- Spearheaded the design and launch of flagship hardware/software products.
- Improved manufacturing processes, lowering production costs by 30%.

Skills:

Product Development & R&D, IoT & Automation Engineering, Agile & Lean Engineering Practices, Manufacturing Process Optimization, Cross-Functional Leadership

Education:

M.S. in Mechanical Engineering, Stanford University

B.S. in Electrical Engineering, MIT
